

Titanium Pliers

New CP880 Ti

Donnmar Titanium pliers continue to be the choice of serious fishermen across the country. They are revered for their ultra-lightweight, superior strength and easy-to-grip design. Now a brand new model joins the Titanium line-up.

The **Donnmar CP880Ti** boasts the same outstanding features and unmatched performance as the popular 950 series in a side-cutter version – a design preferred by thousands of anglers. Once again, Donnmar has delivered a product that answers the fisherman's needs while promising years of dependable use in fresh or salt water.

CP880 Ti
Length (overall): 7 1/4 inches
Weight: 5 ounces

Precision cut 20° diamond pattern jaws on Titanium and Stainless Steel models CP880, CP900 and CP950 pliers offer superb gripping power.

CP950 Ti

Length (overall): 7 3/8 inches
Weight: 6.5 ounces

CP900 Ti

Length (overall): 7 3/8 inches
Weight: 6.5 ounces

CP850EX Ti

Length (overall): 6 3/8 inches
Weight: 3 ounces

Titanium Series Features

- Handcrafted in upstate New York.
- Constructed of military grade titanium.
- Ultra-lightweight, yet amazingly strong and durable.
- Non-slip Sanoprene® rubber grips molded into the handles.
- Super sharp (tungsten-carbide) blades cut nylon, mono (up to 450 lb.), braided line, super braids, and wire (braided and single strand) up to 180 lb. test.
- Blades are replaceable, so you will always have a clean cut.
- The 'gripping' surface of the jaws features a 20° diamond pattern for a secure hold. (CP880 models feature a channel groove jaw surface)
- The pivot bearing is machined from solid brass. It is electroless nickel plated for a lifetime of smooth operation.
- Internal spring loading allows convenient one hand operation.
- Donnmar titanium pliers will not rust, corrode or oxidize. They are warranted for 5 years.

Optional military grade, treated leather holsters provide a glove-fit for Donnmar pliers. Stainless steel belt clip and lanyard ring help keep pliers close at hand and secure. Can be worn with or without a belt.
Model CP9520 fits CP950/CP900/CP880 pliers.
Model CP8520 fits CP850/CP850EX pliers.

Stainless Steel Pliers

New CP880

Fishermen who carry Donnmar Stainless Steel pliers find that they are indispensable tools in any fishing situation. Now the legendary Donnmar reputation for quality, strength and durability will extend to anglers who head to the water with the all-new CP880 pliers on their belt.

Donnmar's new CP880 features the same great performance and smooth operation as the 950 series in a side-cutter design that many sportsmen prefer. Whether removing a hook or trimming the tag end of your line... Donnmar pliers are the perfect tool to do the job fast and efficiently.

CP880
Length (overall): 7 1/4 inches
Weight: 8 ounces

Optional military grade, treated leather holsters resist water, scuffs and stains. Can be worn with or without a belt. Available for all Donnmar pliers.
